

# Homeland Security

## Understanding the Dangers of Agroterrorism

*Presented by Western Institute for Food Safety and Security (WIFSS), University of California, Davis in conjunction with the U.S. Department of Homeland Security, and co-sponsored by US Department of Health and Human Services, Food and Drug Administration*

**When:** Tuesday, July 07, 2009

Registration at 8:00 am

Workshop from 8:30 am to 12:00 pm

**Where:** US Food & Drug Administration

Main Conference Room

19701 Fairchild

Irvine, CA 92612

**Fees:** Free of charge (lunch not included)

**Contact:** David Goldenberg (530) 757-5712

[dgoldenberg@wifss.ucdavis.edu](mailto:dgoldenberg@wifss.ucdavis.edu)

or Maria Vicino (530) 757-5773

[mvicino@wifss.ucdavis.edu](mailto:mvicino@wifss.ucdavis.edu)

**Registration:** <http://wifss.ucdavis.edu/agroterrorism/classes/classesbydate.php> or email [mvicino@wifss.ucdavis.edu](mailto:mvicino@wifss.ucdavis.edu)

This training will build awareness of the threat agroterrorism places on our food supply, the economy, and the agricultural infrastructure.

*Space is limited, so early reservations are recommended.*

### CONTENT WILL INCLUDE

- Potential impacts of agroterrorism
- Recognition of response and recovery resources
- Response & coordination strategies for local, state, federal and private entities
- Identification of individual roles within a local response team

### SUGGESTED ATTENDEES

- Emergency responders, supervisors and managers; law enforcement officers, fire/rescue, EMS & OES
- Federal, state and local public health agencies
- Hospital clinicians, administrators, health care providers
- Environmental health and public information officers
- Agriculture industries, including cultivation, processing, distribution, storage, transportation and veterinarians
- Elected or appointed public officials, and extension advisors

*Foreign Nationals/Non-citizens may take this course but must have DHS pre-approval 30 days prior to course date. Please contact a WIFSS Representative.*

**Registration:** <http://wifss.ucdavis.edu/agroterrorism/classes/classesbydate.php> or email [mvicino@wifss.ucdavis.edu](mailto:mvicino@wifss.ucdavis.edu)

This training will help build prevention strategies for local communities and will prepare response teams to evaluate overall risk of an intentional attack on our food supply, the economy, and the agricultural environment.

*Space is limited, so early reservations are recommended.*

### CONTENT WILL INCLUDE

- Principles of preparedness
- Intelligence gathering networks and evaluation of risks
- Weapons of mass destruction and methods of dissemination
- Hardening targets and enhancing surveillance response teams
- State and Federal agencies' roles, reporting responsibilities and communication
- Principles of biosecurity for agriculture and food systems

### SUGGESTED ATTENDEES

- Emergency responders, supervisors and managers, law enforcement officers, fire/rescue, EMS and OES
- Federal, state & local public health and environmental health agencies
- Emergency planners
- Elected and appointed public officials
- Agricultural industries-including cultivation, processing, distribution, storage, transportation, and veterinarians

*Foreign Nationals/Non-citizens may take this course but must have DHS pre-approval 30 days prior to course date. Please contact a WIFSS Representative.*

**Registration:** <http://wifss.ucdavis.edu/agroterrorism/classes/classesbydate.php> or email [mvicino@wifss.ucdavis.edu](mailto:mvicino@wifss.ucdavis.edu)

This training will help build detection strategies and prepare response teams to diagnose an intentional attack on our food supply, the agricultural environment and economy in local communities.

*Space is limited, so early reservations are recommended.*

### CONTENT WILL INCLUDE

- Principles and methods for detection and diagnosis of an agroterrorism event
- Strategies to enhance detection and diagnosis
- The laboratory networks and hierarchy of reporting to responsible agencies
- The difference between a criminal and an epidemiological investigation
- Sampling and preservation
- Roles of local response teams

### SUGGESTED ATTENDEES

- Emergency responders, supervisors and managers, law enforcement officers, fire/rescue, EMS and OES
- Federal, state & local public health and environmental health agencies
- Hospital clinicians and health care providers
- Agriculture industries, including cultivation, processing, distribution, storage, transportation, veterinarians and extension advisors
- Elected or appointed public officials

*Course is pending California POST certification*

*Foreign Nationals/Non-citizens may take this course but must have DHS pre-approval 30 days prior to course date. Please contact a WIFSS Representative.*

## Principles of National Incident Management System (NIMS) and Risk Communication

*Presented by Western Institute for Food Safety and Security (WIFSS), University of California, Davis in conjunction with the U.S. Department of Homeland Security, and co-sponsored by US Department of Health and Human Services, Food and Drug Administration*

**When:** Wednesday, August 05, 2009

Registration at 8:00 am

Workshop from 8:30 am to 2:30 pm

**Where:** US Food & Drug Administration

Main Conference Room

19701 Fairchild

Irvine, CA 92612

**Fees:** Free of charge (catered lunch included)

**Contact:** David Goldenberg (530) 757-5712

[dgoldenberg@wifss.ucdavis.edu](mailto:dgoldenberg@wifss.ucdavis.edu)

or Maria Vicino (530) 757-5773

[mvicino@wifss.ucdavis.edu](mailto:mvicino@wifss.ucdavis.edu)

**Registration:** <http://wifss.ucdavis.edu/agroterrorism/classes/classesbydate.php> or email [mvicino@wifss.ucdavis.edu](mailto:mvicino@wifss.ucdavis.edu)

This training is designed to show how NIMS improves coordination among responders in an agroterrorism event. This type of event will be different from other disasters, so it is important that response agencies ensure a smooth implementation into NIMS. Team building and risk communication will be presented as key components for a fully functional NIMS.

*Space is limited, so early reservations are recommended.*

### CONTENT WILL INCLUDE

- Core concepts of the ICS, NIMS, and risk communication, weapons of mass destruction (WMD) and methods of dissemination
- NIMS as an all-hazards, and comprehensive approach to collaborative incident management.
- Using ICS to coordinate the efforts of multiple agencies
- Basic principles of interagency teamwork, communication, and conflict management
- Understanding of the importance of effective internal and external communications

### SUGGESTED ATTENDEES

- Emergency responders, supervisors and managers, law enforcement officers, fire/rescue, EMS and OES
- Federal, state & local public health and environmental health agencies
- Hospital clinicians, administrators, health care providers
- Environmental health and public information officers
- Agriculture industries, including cultivation, processing, distribution, storage, transportation, veterinarians and extension advisors
- Elected or appointed public officials

*This course meets (or exceeds) all of the NIMS/ICS training requirements listed in the DHS NIMS National Standard Curriculum Training Development Guidance, October 2005, for the FEMA IS-700: NIMS*

*Foreign Nationals/Non-citizens may take this course but must have DHS pre-approval 30 days prior to course date. Please contact a WIFSS Representative.*

**Registration:** <http://wifss.ucdavis.edu/agroterrorism/classes/classesbydate.php> or email [mvicino@wifss.ucdavis.edu](mailto:mvicino@wifss.ucdavis.edu)

The purpose of this course is to train the members of frontline teams how to respond to a potential incident of agroterrorism.

*Space is limited, so early reservations are recommended.*

### CONTENT WILL INCLUDE

- Fundamental elements needed to respond to an agroterrorism disaster in a community
- Core competencies needed in a community agroterrorism/disaster response team
- Gain insight to the communities' vulnerabilities and plan strategies for prevention, response and recovery
- Strategies for building and sustaining a community agroterrorism/disaster response team
- Collaborative strategies for the community team to succeed with state and federal responders

### SUGGESTED ATTENDEES

- Emergency responders, supervisors and managers, law enforcement officers, fire/rescue, EMS and OES
- Federal, state & local public health and environmental health agencies
- Hospital clinicians and health care providers
- Environmental health and public information officers
- Agriculture industries, including cultivation, processing, distribution, storage, transportation and veterinarians
- Elected or appointed public officials, and extension advisors

*Course is pending California POST certification*

**Registration:** <http://wifss.ucdavis.edu/agroterrorism/classes/classesbydate.php> or email [mvicino@wifss.ucdavis.edu](mailto:mvicino@wifss.ucdavis.edu)

The purpose of this course is to train the members of frontline teams how to recover from a potential incident of agroterrorism

*Space is limited, so early reservations are recommended.*

### CONTENT WILL INCLUDE

- Strategies to identify community assets to support recovery operations
- Recovery planning that must be present to initiate and manage a food/agriculture disaster
- Operational considerations and techniques for directing the recovery from an incident
- Guidelines for accessing and managing financial resources in recovery operations
- A framework response to ensure that recovery restores public confidence

### SUGGESTED ATTENDEES

- Emergency responders, supervisors and managers, law enforcement officers, fire/rescue, EMS and OES
- Federal, state & local public health and environmental health agencies
- Hospital clinicians, administrators, health care providers
- Environmental health and public information officers
- Agriculture industries, including cultivation, processing, distribution, storage, transportation, veterinarians and extension advisors
- Elected or appointed public officials
